

**COURSE:** PHYS1101L:2 Elements of Physics I  
**INSTRUCTOR:** Michael Power      Students: 19      Respondents: 16      Response Rate: 84.2%

The following information is a summary of the official student evaluation of PHYS1101L:2

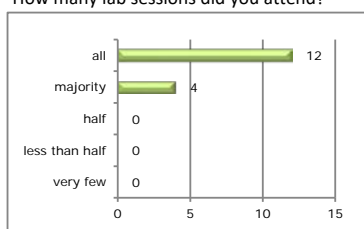

Information and comments are elicited anonymously from students. Bar graphs represent the frequency of each response. Individual comments (positive or negative) should not be given undue weight. There is no average of averages provided in accordance with the Cape Breton University Policy for Standard Student Course Evaluation; this provision minimizes the potential for an instructor's teaching to be reduced to a single number based on students' responses. The evaluation of teaching should be interpreted as a whole and students' responses should be considered as only one part of the overall evaluation of an instructor's teaching.

## Student Information

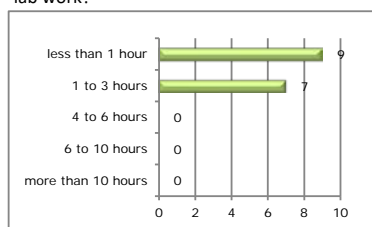

Was attendance at each lab session mandatory?

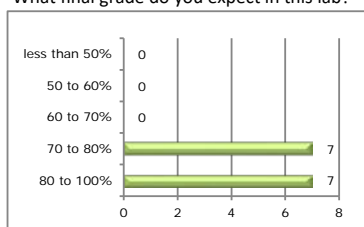

How many lab sessions did you attend?

How many hours per week did you spend on lab work?

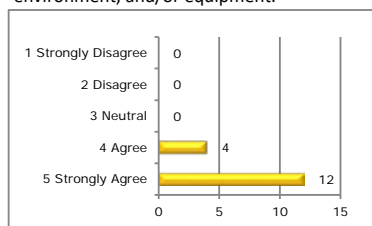

What final grade do you expect in this lab?

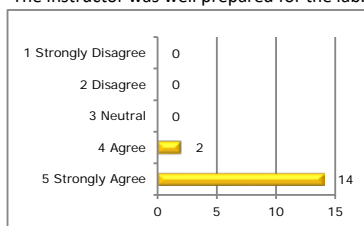

## Lab Evaluation

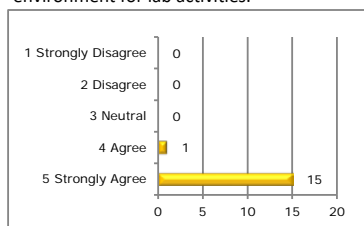

The instructor provided adequate information on safety procedures, the lab environment, and/or equipment.

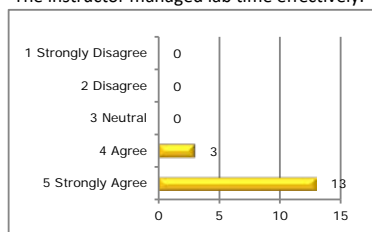

The instructor was well prepared for the lab.

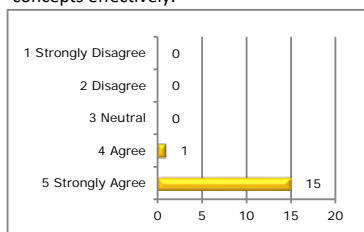

The instructor fostered a supportive learning environment for lab activities.

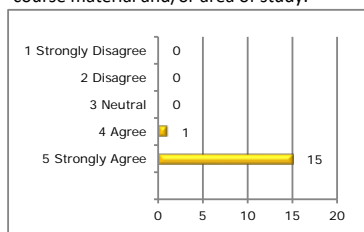

The instructor managed lab time effectively.

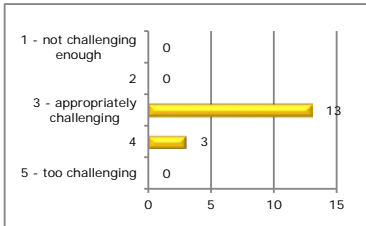

The instructor presented lab material and concepts effectively.

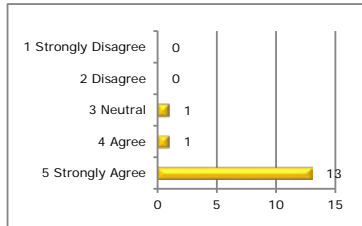

Lab work helped with your understanding of course material and/or area of study.

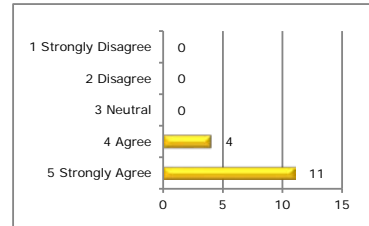

How challenging were the assignments and concepts in this lab?

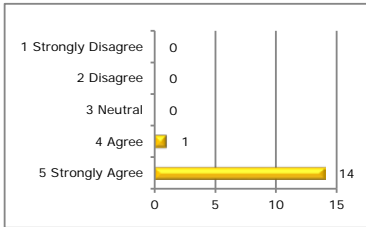

The lab activities were planned to facilitate your active learning.

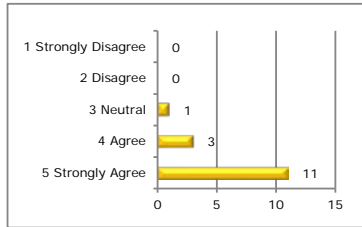

The instructor communicated clearly how your performance would be evaluated.

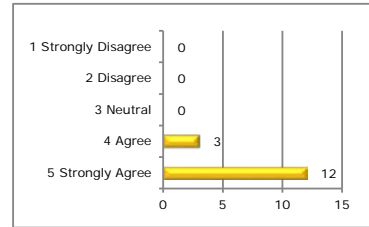

The instructor promoted interest and engagement in lab content.

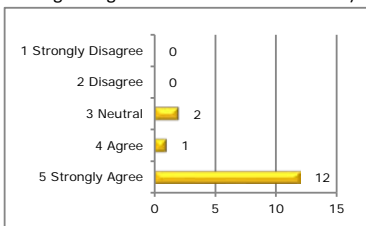

The lab activities promoted interest and engagement in the lab content.

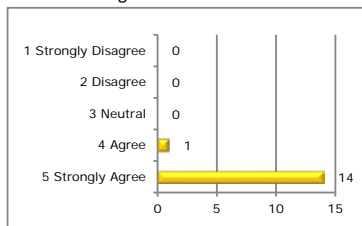

When appropriate, the instructor encouraged interaction among students.

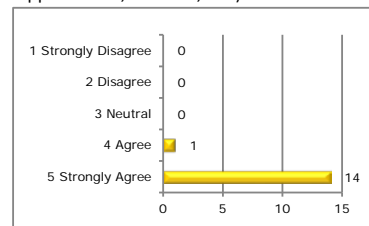

The instructor provided feedback to help you learn how to improve (e.g., in the lab and/or through assignments and written feedback).

The instructor chose evaluation methods that allowed you to demonstrate your understanding of the lab material.

The instructor was available outside of lab for questions and concerns (e.g., by email, appointment, after lab, etc.).

## Comments

*Please provide your rationale for giving positive and/or negative ratings of the lab and/or lab instruction.*

The lab instructor provided clear directions every week, and was always in a good mood/cheerful. Till now there is nothing negative about this lab except we have to do prelabs which was already live too much because we also have other assignments going on. Michael was a great lab instructor. Very helpful. Work done in lab helped with work done in class. Corrected things very quickly. Michael is one of the best lab instructors. I don't know how he's so patient. He was very accomodating to me when I had my surgery. Great guy! :) Michael was one of the best lab instructors I've had at CBU. He was extremly helpful at all times, and was very engaging. I will give a 5 star rating to Michael since he not only helped me in my lab sessions, but was happy to help me outside the lab too. He helped me in my physics theory. The labs we did in this course were really awesome due to hardwork of my instructor and my professor. All Good

*Please provide comments on what, if anything, can be improved in the lab and/or lab instruction.*

N/A

Change the lecturer. He is not a good teacher. Mike is a better teacher than Geoff.

I dont have anything bad to say about this lab.

I wish people would respect him more and stop talking over him.

If the lab lighting is changed into white, it will be good

You are perfect man

You are perfect, helped a lot in improving my mussll perform of both lecture and labs

Everything is there for you to do the labs

All Good
